

AIR POLLUTION

LO: To identify the cause, effect and solutions for air pollution.

- For this lesson, each slide will give you a clue to complete the table at the end.
- Please watch the video too.
- We **have been looking** at the causes and effect of air pollution over the past term.
- This lesson, I want you to **reflect** on some solutions to this crisis.
- You will use this information to write a letter to the Mayor of London.

Please Watch This Video

Why do we need safe clean air?

How does our air get polluted?

What is pollution?

The main pollutants in London are:

“Day in the life of a child”

[Video](#)

How does pollution affect me and my family?

What's the solution?

Who can make this happen?

What do you think?

Imagine you are:

- the Mayor of London
- a worried London parent
- a car fanatic who thinks pollution is a lot of fuss about nothing

How do you think we should solve the air pollution crisis?

ACTIVITY

- Complete the table on the next page.
- The answers are on the final page.

Cause, effect or solution?

Cause 	Effect 	Solution 

Answers on the Next Page

Can you think of any more factors/solutions?

Cause, effect or solution?

Cause 	Effect 	Solution 
<p>Factories</p> <p>Gas power stations</p> <p>Driving to school</p> <p>Flying on holiday</p>	<p>Heart problems</p> <p>Breathing problems</p> <p>Asthma</p> <p>Nitrogen dioxide</p>	<p>Polluting cars need more</p> <p>Charging points for electric cars</p> <p>Walking to school</p> <p>Solar and wind energy</p> <p>Cycle lanes</p>
