- I think this work communicates...
- I could improve my work by...

Vocabulary

texture	composition	detail	rubbing	overlap
				

Collage is a form of art made from different materials like paper, photos and fabric, glued onto a surface.

Warm colours are used to draw the eye and make objects jump out at the viewer. They can seem energetic, bright and happy.

Cool colours move away from the viewer. They can be relaxing or calm, but they can also seem sad.
