

Knowledge

- Identify and name, the basic parts of the human body.
- Draw and label the basic parts of the human body.
- * The body has lots of parts.
- * Each part of the body has a name.
- * Most bodies have a head, neck, arms, elbows, hands, legs, knees, feet, face, ears, eyes, nose, hair, mouth and teeth
- Say which part of the body is associated with each sense.

Sight

Humans use their eyes to see.
You can see when there is light.
You cannot see in the dark.
Some people cannot see.

Sound

Humans use their ears to hear sounds.
When sounds are quiet, they can be harder to hear.
When sounds are loud, they are easier to hear.

Taste

The tongue helps humans to taste.
The tongue is in the mouth.
There are five basic tastes – sweet, salty, sour, bitter and savoury.

Touch

The skin is the part of the body that helps us to sense touch.
Skin covers the whole body.
We can sense touch using different parts of the body

Smell

The nose helps us to sense smell.
The nose is on the face.
Some objects have a stronger smell than others

Working scientifically:

- Asking simple questions and recognising that they can be answered in different ways.
- Performing simple tests.
