Art Resource – Thursday 23rd April 2020

LOOK AT THIS PICTURE AND ANSWER THESE QUESTIONS WITH YOUR FAMILY…

What things can you see in the picture?

What animals are in the picture?

What is the wolf doing?

What do you think was happening in the picture BEFORE what we are looking at happened?

A question to think about
What part of the picture would you want to move to make the picture come alive??

YOU WILL BE MAKING YOUR OWN 'MOVING PICTURE'.

To make this picture, you will not be drawing with a pencil!

You will need to find pictures of people or animals from magazines or old newspapers and you will be cutting them out and sticking them onto a plain paper to create a moving picture.

FOR THIS YOU WILL NEED:

To make this picture you will need:

- Scissors (Make sure an adult is watching you cut)
- Newspapers or old magazines
- A Glue stick
- A4 Plain paper

EXAMPLE

I wanted to make a picture about a dog chasing a cat up a tree

I needed to find images of dogs, cats and trees

I looked through magazines and found this image. I chose an image of a dog, this image of a cat, and an image of a tree

I cut the images out carefully so that I didn't chop off any important bits

I arranged the images on a sheet of A4 paper so that the dog was at the bottom of the tree and the cat up the tree,

I altered the positions a little bit before I stuck them down with a glue stick
