

Year 2 Newsletter

Spring 1
2022

News

Welcome back! We hope you enjoyed your Winter holidays. The children worked very hard in the last term and are starting to acquire all the skills they need to progress in year 2. We have had some exciting enrichment opportunities with the children that have enhanced their learning such as the 1920s day.

Literacy

In Literacy we will begin the term with the story Man on the Moon (a day in the life of Bob). Children will be writing a description of the setting, a persuasive text and a report. After that, children will move on to a new story, The Whale Song. Children will be writing their own problems and solutions to this story.

Please ensure that children are reading every-day and that they are practising joining up their handwriting. If you need any resources for this, please do not hesitate to contact your class teacher.

Science

This half term our topic will be 'Growing Up' children will be learning about what babies need, how we change and doing an exciting growth investigation.

For this topic, we would like the children to bring in a baby picture of themselves so we can see the changes that have happened as they have grown.

Computing

Children will be learning about digital photography. They will learn to recognise that different devices can be used to take photographs and will gain experience capturing, editing, and improving photos. Finally, they will use this knowledge to recognise that images they see may not be real.

Art

In art this term we will be learning about colour with a focus on collage and colour. They will be looking at silhouettes from the Great Fire of London and using mixed media and colour to create a collage to represent the fire.

History

This term we will be learning about The Great Fire of London. Children will be learning about how the fire started, who was impacted and what happened afterwards.

Children will also be sequencing artefacts, photographs and looking at the differences between now and then.

For more information, please view the knowledge organiser on the website.

Music

Children will learn songs, play instruments and learning about musical terms such as beat, rhythm, pitch, high and low.

Maths

In year 2, children will need to learn their **2, 3, 5 and 10 multiplications**. They need to recall these at speed and learn the division facts to go with them. They will need to understand key vocabulary such as **groups of, equal groups and sharing**. Please support your child to learn these times tables. Education City is a useful website to support with this: <https://www.educationcity.com/learn-your-times-tables-with-educationcity/>

They will be learning about odd and even numbers where they will need to apply their knowledge of odd and even numbers to solve problems.

Children will also begin to learn about tally charts and pictograms.

PSHE

Our topic this term will be 'Healthy Me'. During this topic, children will learn how to have a healthy lifestyle, how medicines can help us and ways to stay calm and relaxed.

P.E

In P.E. children will be learning about dance and gymnastics. We will be linking actions to create a sequence and simple movement patterns. Children will be given the opportunity at the end of the unit to perform their own dances.

If you have any questions, please do not hesitate to make an appointment with your child's teacher.

Thank you

Miss Chaudhry 2W

Mrs Maher 2P

Miss Khan 2S

and Miss Hankin 2F

Year 2 Topic Home Learning Spring 1

Please choose **at least** one of the challenges to complete.

Great Fire of London

Research the Great Fire of London and create a story book.

Can you add illustrations to your story?
What are the key events that happened during this time?
How have things changed in London since then?

How have you changed?

Create a poster about yourself to explain how you have changed. You will need a photo of yourself when you were a baby and a photo of yourself today. Compare the photos and write about any changes you notice.

Think about:

What has changed physically?
Has anything stayed the same?
What has changed in what you like to do?
Why have these changes occurred?

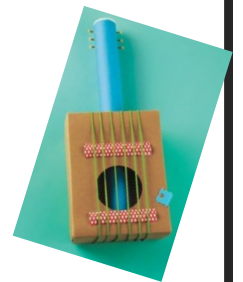

Remember to make your poster bright and attractive so it stands out.

Make a musical instrument!

Use materials you have at home to make your own instruments.

There are lots of ideas on the internet, here is one useful website:

<https://www.learningliftoff.com/make-homemade-music-with-these-6-diy-instruments/>

When you have made your instrument, bring it to school or take a photo of it. What pitch does your instrument make? What beat can you make with your instrument?

Compulsory Homework

Each Friday your child will be given Year 2 spellings which they need to practise and learn for a test every Friday. Children will also be given English and Maths homework on a Friday. This is due back on Tuesdays. They will be given a CGP Homework book from which they will be expected to complete specific pages and they will also be given homework on google classroom.
